

GORDON PRODUCTS

Specialist manufacturers of wire and sheet metal fixings for the precast concrete & construction industries

Uniclip Range Void Ceiling Clips

For creating voids to allow passage of essential services when using timber battens suspended below precast beam & block floors

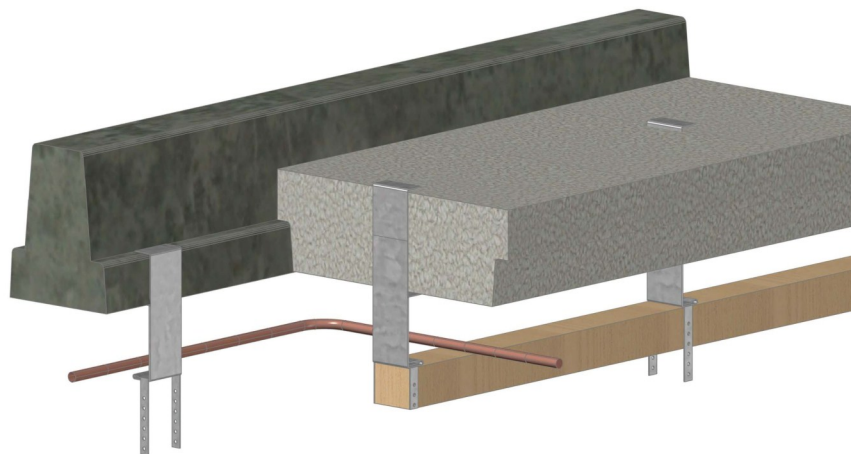

Void Clips are manufactured to customers specification

Dimensions A,B can be adjusted to suit individual needs

Made from galvanised steel, the void clip has a double thickness of material for extra rigidity

Can be fitted to beam shoulder, between block work or flat slab

Established for over 40 years, Gordon Products manufactures and supplies quality products to a diverse range of manufacturing and construction industries.
