

GORDON PRODUCTS

Specialist Manufacturers of Wire Forms & Metalwork Components

Supporting a diverse range of industries with CNC formed wire shapes and sheet metal components, Gordon Products Ltd has the experience and know how to assist in providing the best cost effective solutions to support your business needs.

The UNICLIP

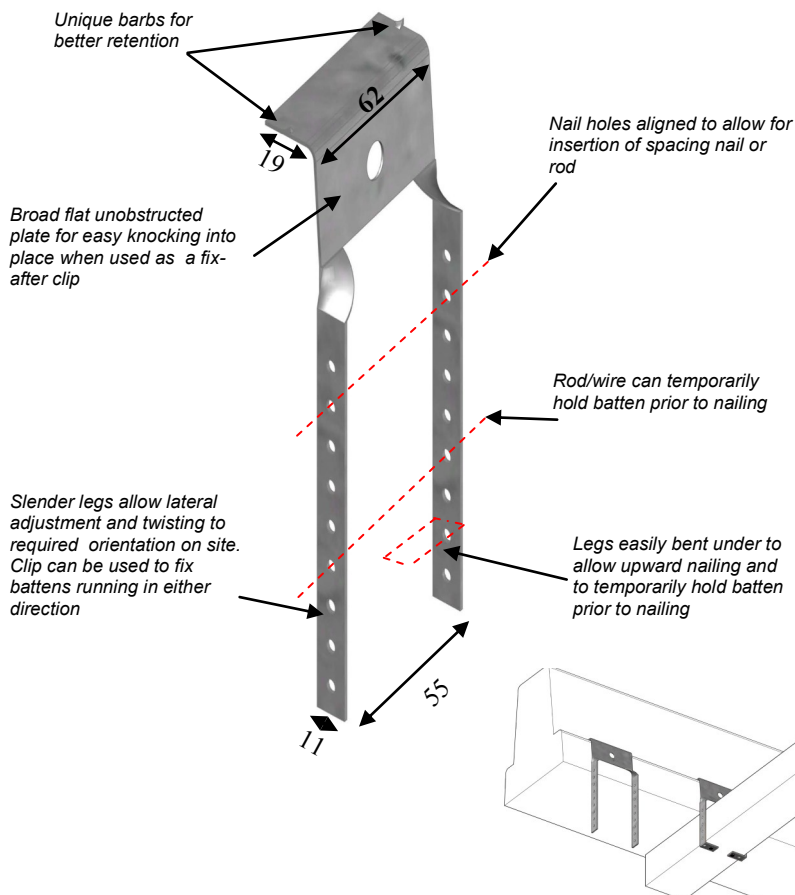

THE FIRST TRULY UNIVERSAL CEILING CLIP

Suitable for use with all precast flooring systems

Allows fixing of ceiling battens in either direction

Full 'After-Fix' capability

Many other unique features

UNICLIPS are supplied for use with beam and block flooring systems. The slender legs allow upward or sideways nailing as preferred and easy twisting on site to required orientation.

Standard Nominal Dimensions
(Total height to internal of folded face)

145mm Long
195mm Long
225mm Long

Material

0.7—0.8 Galvanised Mild Steel

As with all 'Fix-After' clips, fixing is advised prior to grouting the floor. However, in practice, when used with beam and block floors it is often possible to fix after grouting. When using with full depth or shaped blocks UNICLIPS with untwisted legs should be used & should be fitted prior to laying the blocks, unless slotted through the vertical joints between.

PATENTS PENDING

Established for over 40 years, Gordon Products is a manufacturer and supplier of quality products to a diverse range of manufacturing and construction industries.
